casino cards

B R A N D

Great playing cards can be improved, and that exact philosophy has driven the creation of our newest product, BlackJack Brand Premium Casino Playing Cards™ from Cartamundi.

For over 250 years, we have listened to our customers input for product improvement. Customer concern for high quality playing cards is what drives our product development team to create features like our Soft Border®, Flash Bar® and our Eight Back card designs. We've also improved manufacturing quality, deck durability and warp resistance.

write-on area

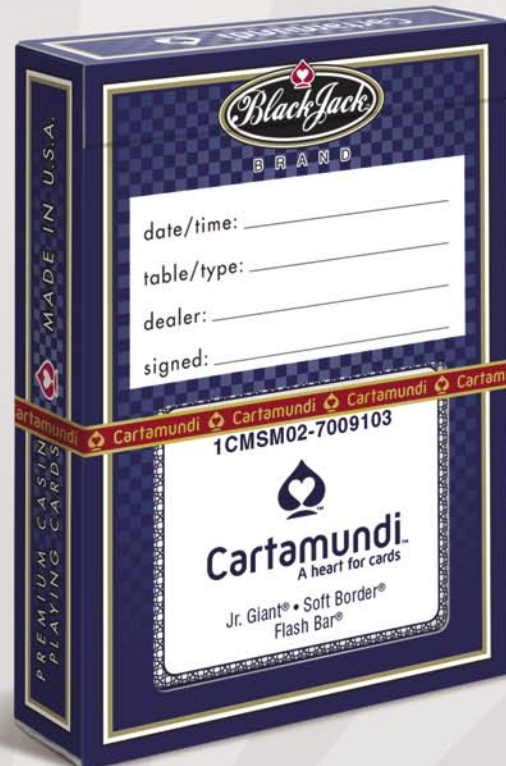

- Important for Security/Surveillance
- Track Where, When and Who Used Each Deck

product id card

- Displays Important Information Through the Tuck Box Window
- Lot Number, Casino Logo, Deck Type

At Cartamundi, we have a heart for cards. It reflects both our passion and our mission, to be the leader in the world of playing cards. Cartamundi playing cards are "Made in the U.S.A." in Dallas, Texas. We also have manufacturing facilities in Belgium, England, Germany, Poland and Brazil.

The gaming industry demands the highest levels of playing card quality and security, and most of all, outstanding Customer Service. Cartamundi's concern for manufacturing and quality control procedures are designed to ensure you receive reliable, high quality cards for your table games. We constantly strive to improve our processes through customer feedback, investigation and innovation.

No other manufacturer is more concerned about Customer Service than Cartamundi. We customize our products and services to meet your individual needs. We personally meet with all of our customers on a regular basis to learn about their operation, gather information and provide feedback to our manufacturing team.
